Activity Book

Read • Write • Count • Discover

Prepared by: Ms. Amina Qatan 2026

Little words. Big discoveries.

My name: _____

Ready for the next step!

A general KG2 practice book for children beginning to read, write and work with numbers. Choose activities to suit your child's readiness.

Read and talk together

Read instructions aloud as needed. Help the child say each sound, blend a short word and discuss the pictures.

Model the handwriting

Trace with a finger first. Show one stroke at a time from the green dots. The handwriting models use simple single-storey a and g; printed forms may look different.

Build number sense

Touch and count each item. A full ten-frame has ten dots. Add groups together and cross out pictures to take away.

Support early reading

Short words and sentences are practice, not a test. Read a tricky word together, then let the child try again.

Celebrate progress

Use pencils and crayons. Accept spoken answers where writing is still developing. The final pages include answers and a certificate.

1 This is my world
